- 3.) Open the app and hold your phone up to the code to scan.
- 4.) Once the code has been scanned, the rosters will pop up on your device. (from there you can tab through which roster you want to view).
- 5.) When you want to revisit during a game there will be an icon on the QR app that allows you to view past scanned sites.
- 6.) The rosters are a “live” document meaning as the schools make changes, it will change in your site automatically.
