5 Staff Health

6
7 Medical Examinations

8
9 Through its overall safety program and various policies pertaining to school personnel, the Board
10 will promote the safety of employees during working hours and assist them in the maintenance
11 of good health. The Board will encourage all its employees to maintain optimum health through
12 the practice of good health habits.

13
14 The Board may require physical examinations of its employees, under circumstances defined
15 below. The District will maintain results of physical examinations in medical files separate from
16 the employee's personnel file and will release them only as permitted by law.

17
18 Physical Examinations

19
20 The District participates in a Pre-Placement Physical Program for all custodial and maintenance
21 personnel and other positions deemed inclusive of this policy as determined by specific Board
22 action. Subsequent to a conditional offer of employment in a position for which the District may
23 require participation in a pre-placement physical but before commencement of work, the District
24 may require an applicant to have a medical examination and to meet any other health
25 requirements which may be imposed by the state. The District may condition an offer of
26 employment on the results of such examination, if all employees who received a conditional
27 offer of employment in the applicable job category are subject to such examination. The report
28 shall certify the employee's ability to perform the job-related functions of the position for which
29 the employee is being considered. Such examination shall be used only to determine whether the
30 applicant is able to perform with reasonable accommodation job-related functions.

31
32 All bus drivers, whether full-time, regular part-time, or temporary part-time, are required by state
33 law to have a satisfactory medical examination before employment.

34
35 Communicable Diseases

36
37 If a staff member has a communicable disease and has knowledge that a person with
38 compromised or suppressed immunity attends the school, the staff member must notify the
39 school nurse or other responsible person designated by the Board of the communicable disease
40 which could be life threatening to an immune-compromised person. The school nurse or other
41 responsible person designated by the Board must determine, after consultation with and on the
42 advice of public health officials, if the immune-compromised person needs appropriate
43 accommodation to protect their health and safety.

44
45
46

1
2
3
4 An employee with a communicable disease shall not report to work during the period of time in
5 which the employee is infectious. An employee afflicted with a communicable disease capable of
6 being readily transmitted in the school setting (e.g., airborne transmission of tuberculosis) shall
7 be encouraged to report the existence of the illness so that precautions may be taken to protect
8 the health of others. The District reserves the right to require a statement from an employee's
9 primary care provider, before the employee may return to work.
10

11 Confidentiality
12

13 In all instances, District personnel will respect an individual's right to privacy and treat any
14 medical diagnosis as confidential information. Any information obtained regarding the medical
15 condition or history of any employee will be collected and maintained on separate forms and in
16 separate medical files and will be treated as confidential information. Only those individuals with
17 a legitimate need to know (i.e., those persons with a direct responsibility for the care of or for
18 determining workplace accommodation for the staff person) will be provided necessary medical
19 information.
20

21 Supervisors and managers may be informed of necessary restrictions on the work or duties of an
22 employee and necessary accommodations. First aid and safety personnel may be informed,
23 when appropriate, if a staff member with a disability might require emergency treatment.
