5 Capitalization Policy for Fixed Assets

6
7 A fixed asset is a property that meets all the following requirements:

- 8
- 9 1. Must be tangible in nature;
- 10
- 11 2. Must have a useful life of longer than the current fiscal year; and
- 12
- 13 3. Must be of significant value.
- 14

15 Fixed assets may be acquired through donation, purchase, or may be self-constructed. The asset
 16 value for a donation will be the fair market value at the time of donation. The asset value for
 17 purchases will be the initial cost plus the trade-in value of any old asset given up, plus all costs
 18 related to placing the asset into operation. The cost of self-constructed assets will include both
 19 the cost of materials used and the cost of labor involved in construction of the asset.

20
21 The following significant values will be used for different classes of assets:

<u>Class of Fixed Asset</u>	<u>Significant Value</u>
Equipment and machinery	\$5000.00 or more
Buildings - improvements	\$5000.00 or more
Improvements other than to buildings	\$5000.00 or more
Land	Any amount
